- all parts of the application form are fully completed.
- there are funds remaining within the counselling fund for distribution.

What you can expect if your application is successful

We will ask you to complete a brief questionnaire before starting counselling and then again when you have finished. This is to allow Leukaemia Care to measure the impact of the service on people affected by a leukaemia diagnosis.

If you want help sourcing a counsellor, we can help with this, and will provide you with contact details. These counsellors do not work on behalf of Leukaemia Care and we are not responsible for the service provided, we curate a list of counsellors who've previously supported leukaemia patients and close family members through this fund and received positive feedback. You are also welcome to source your own counsellor, as long as they are registered with the British Association of Counselling and Psychotherapy (BACP), or the UK Council of Psychotherapy (UKCP). We strongly recommend that you call and speak with several counsellors to see if it is someone you feel you can work with.

Please note that the cost of the initial assessment is included within the six-session maximum that Leukaemia Care will fund.

Counselling services are in high demand so if after the first session you decide counselling is not for you, don't worry – just let us know. We can then assign the funding to someone else.

Confidentiality

Your personal information will only be used for the purposes of assessing your application for the Ann Ashley Leukaemia Counselling Fund and if successful, to administer payment and to evidence the impact of the counselling on you. The feedback you provide will be anonymised.
